DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by the following prior art references:

- a US 4,647,484 issued to Higgins.
- b US 4,522,857 issued to Higgins.
- c JP 04-119842 assigned to Toray.
- d JP 04-119841 assigned to Toray.
- e FR 2303136 assigned to Metzeler Schaum.
- f NL 8203180 issued to Van Heugten.
- g DE 2310970 issued to Hendrix.
- h CH 476,891 issued to Schuette et al.
- i DE 1560755 issued to Maysenholder.

Claims 1-4 are drawn to a carpet tile and a plurality of carpet tiles in an abutting relationship, wherein said carpet tiles comprises an upper textile surface and a cushion foam layer

beneath said textile surface. All of the cited prior art teach carpet tiles having a fabric upper surface and a foam backing layer. The presently claimed limitations to the cup and curl of the tile corners include a cup and curl of zero (i.e., "or less"). Thus, said limitations are inherently met by the prior art, in that when tiles are installed on a floor, they form a planar floor surface having a zero cup and curl of the corners. Therefore, claims 1-4 are anticipated by the cited prior art.
